

## Corporate Profile

Life. forward

[www.vasmedtech.com](http://www.vasmedtech.com)

At Vasmed, our mission is to provide medical devices that help people with life threatening vascular disease conditions, to advance in life.

We ensure this through technologically advanced, high quality medical devices that are provided at a value such that care is accessible to all segments.

**Life. forward**

## About Us

VASMED established at the turn of the millennium, is focused on manufacturing interventional cardiology and vascular implantable devices. Since commencement of operations in the United Kingdom in 1990s, we now manufacture and export to countries across the Europe, Asia, Africa, and Middle East.

### Our core values

#### Enabling technology access

VASMED is focussed on manufacturing vascular devices used in angioplasty procedures such as Percutaneous Transluminal Coronary Angioplasty (PTCA) and Percutaneous Transluminal Angioplasty (PTA) balloon catheters, bare metal and drug eluting stent systems and coronary guidewires. Our team consist of highly trained and industry experienced engineers and commercial staff who are focussed on bringing innovation, and ensuring high quality to our products.

#### Ensuring high quality products

We place patient health and improved quality of life as our focus, and strive to ensure the reliability and safety of our devices by adhering to international standards. Constant engagement with physicians, clinical advisors, and working in partnership with medical community, we strive to develop and improve our product on a regular basis, thereby enabling our product to exceed customer expectation.

#### Driving innovation

Our core values reflect our history, endeavours and aspirations. Every member of Vasméd family uphold these values: a. ensuring technology accessibility to our customers across all demographic sectors in our target markets. b. design, manufacture, and distribute high quality medical devices that are safe and with proven clinical efficacy, and c. drive innovative solutions with the ultimate goal of improving quality of life and wellness to our patients.

Our Products

## Our Products

Vasmed range of PTCA and PTA Catheters include

### PTCA Catheters

**Fast Track**  
Predilatation Balloon Catheter

**Vas Track**  
Semi compliant PTCA Balloon Catheter

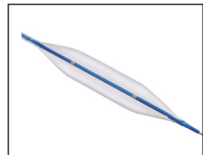

**High Track**  
Non-Compliant High Pressure  
Balloon PTCA Catheter

### PTA Catheters

**Indigo Rx**  
Rapid Exchange Peripheral Transluminal  
Angioplasty (PTA) catheter

**Indigo OTW**  
Over the wire Peripheral Transluminal  
Angioplasty (PTA) catheter

## Our Products

### Coronary Stents

#### **Rapstrom**

Sirolimus Drug Eluting Coronary Stent System

#### **Akos**

Sirolimus Drug Eluting Coronary Stent System

#### **Rapstrom Elite**

Sirolimus Drug Eluting Coronary Stent System

### Guidewires

#### **Accex**

0.014" PTCA Guidewires

## Certifications

### Facilities

VASMED, maintain and operates a class-10000 custom built clean room with state-of-the-art equipment in UAE.

### Certifications

Vasmed manufacturing facilities are ISO 13485, GMP from MOH, UAE and Japan PMDA. certified, our products are CE marked.

### Services and Contract manufacturing

As an established manufacturer of interventional cardiology and peripheral interventional products, Vasmed can provide Original Equipment Manufacturing (OEM) and Own Brand Labelled (OBL) versions of our products to our partners. In addition,

- Customized balloon catheters, for dilatation and as platform for stents and drugs
- Stent design, evaluation, customized crimping protocols, performance optimization
- Balloons (design, multiple materials, surface treatment)

### Our Design Services include

- Design of Innovative products based on state-of-the-art technology
- Reduce time to market for innovative products
- Brainstorm new ideas, expand portfolios
- Proprietary patents development
